### Question-3:

The screenshot displays the IBM Cloud Object Storage management console. On the left, a sidebar shows navigation options like 'Cloud Object Storage', 'Storage instances', 'Cloud Object Storage-ed', 'Buckets', 'Integrations', 'Endpoints', 'Usage details', 'Service credentials', 'Connections', and 'Plan'. The main area shows a bucket named 'Plasma Donor' with a warning that all objects have public view access. A table lists the objects in the bucket:

Object name	Archived	Size	Last modified
healthy_eating_plates.png		12.5 KB	2022-10-19 8:11 PM
nutrition_pyramid.png		53.4 KB	2022-10-19 8:47 PM

nutrition_logo.png		94.7 KB	2022-10-19 8:47 PM
styles.css		35 bytes	2022-10-19 9:14 PM

Below the table, there is a 'Drag and drop files (objects) here or click to upload' instruction. The browser window at the bottom shows the 'Plasma Donor' HTML page, which has a light blue background and three images related to blood donation: a blood bag, a blood drop, and hands holding a heart.
